Mastering the art of luxury since 1861

L'Essenza

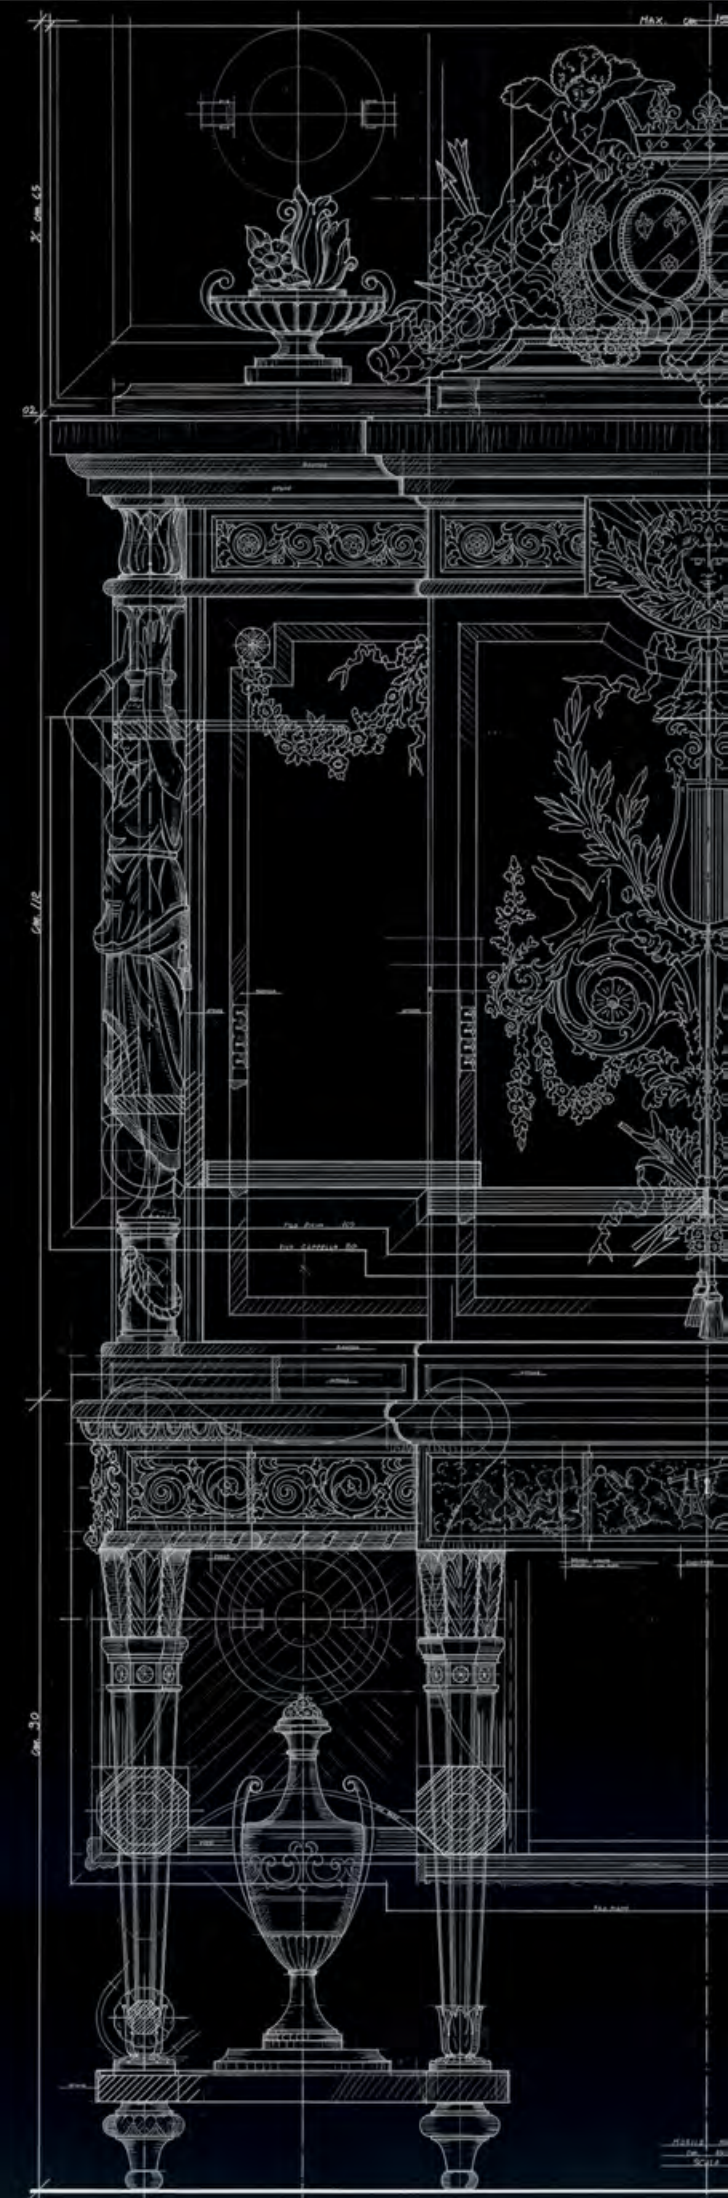

True luxury is the palpable presence of time, dedication, and absolute mastery. Since 1861, we have stood at the pinnacle of Italian craftsmanship, dedicating our expertise to the majestic beauty of classic and period-style furniture. Today, our custom-made creations transcend mere opulence: they elevate traditional elegance into soulful, living environments. Within our Meda atelier, rare materials are transformed through meticulous attention to historical details and uncompromising standards. We do not simply manufacture furniture; we sculpt timeless classic masterpieces destined to be cherished across generations. Welcome to a world where profound heritage breathes, and every creation is an authentic celebration of the extraordinary.

Every bespoke project becomes a deeply personal dialogue with our clients. We seamlessly blend ancient techniques such as intricate hand-carving and 24kt gold gilding with absolute customization. From Italy to the world's most prestigious estates, we shape not just rooms, but enduring legacies. This commitment to absolute perfection means we never compromise. By harmonizing our rich artisanal roots with contemporary technical precision, we bring the most ambitious architectural visions to life. C.G. Capelletti remains the definitive choice for those who seek the pinnacle of exclusivity.

OUR ARTISTIC PASSION

Our passion for art is the heritage we pass on to our furnishings, elevating them to timeless works. This dedication materializes in masterful, high-level hand-design. The intricate drawing flanking the finished creation is the soul of the piece, an imprint of love and precision that defines every curve, carve, and gilded detail, guaranteeing excellence.

The thread of time: A story crafted with soul since 1861

In 1861, amidst the rhythmic sound of chisels in Meda, Antonio Capelletti founded a legacy. What began in an artisan workshop, shaping wood for others with quiet devotion, soon became a bold declaration of artistry. In 1911, young Angelo took over the business. He shifted from third-party production to crafting his own Renaissance-inspired masterpieces, giving the Capelletti vision its own distinct, proud voice.

True passion survives the darkest eras. When the Second World War called brothers Cleto and Mario to arms, they were torn from the wood they loved. Their triumphant return to Meda ensured the family's art would flourish. By 1961, Mario chose to devote his soul to the profound study of the Baroque style. His hands breathed life into intricate carvings that forever became our enduring signature.

The 1970s ushered in a transformative era with Claudio. Absorbing ancient secrets by his father's side, he fiercely protected our traditional craftsmanship while boldly taking the Capelletti name to the international stage. This drive fueled our 1990s expansion: a magnificent 5,000-square-meter sanctuary. Here, cutting-edge precision seamlessly meets the sacred art of 24kt gold gilding with agate stone, mastering styles from Empire to Chippendale.

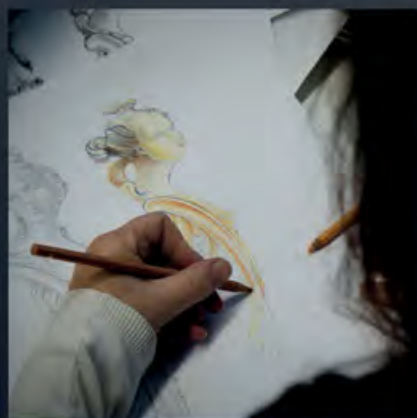

Today, this immortal fire is carried forward by Diego. Driven by a profound love for classic furniture, he infuses ancestral craftsmanship with modern 3D modeling and contemporary vision.

Proudly championing our Baroque soul at the Milan Furniture Fair, Diego ensures our heritage thrives. Our story proves that true luxury is never merely manufactured; it is a living masterpiece, passed down hand to hand, across centuries."
