

### **3 decades of global expansion**

Europe, the United States and the Persian Gulf countries - these are the markets to which the offer of the Polish manufacturer of upholstered furniture reaches. Complet Furniture means 30 years of experience and a guarantee of high quality of offered products.

Furniture manufactured by Complet Furniture has a very good quality to price ratio. The basic competitive advantage of the company over other products offered on the market are:

- use of high quality natural raw materials such as wood (spruce or beech) - the company holds the FSC certificate No. FSC-C146132 confirming the responsible source of the raw material,
- use of water-based glues and water-based varnishes,
- use of fabrics with appropriate certificates, e.g. for non-flammability, resistance to fungus (fabrics with nano-silver) or so-called "easy clean" - use of seat fabrics with very high abrasion resistance,
- use of extremely durable locks,
- use of threads with reinforced structure on cotton warp,
- use of formaldehyde-free plywood,
- use of high quality upholstery foams from UK, with high elasticity and non-flammable properties (confirmed by a special test)
- use of bonell, pocket and mini-bonell springs
- the use of natural feathers to fill pillows in selected models

High quality of furniture manufactured by Complet is confirmed by a very low complaint ratio of 0,02%!
