Dobble

With the double-walled items from the Dobble collection, you can enjoy your drink for an extra long time. Because the glasses are made of borosilicate thermo glass, the glasses are resistant to both cold and warm liquids. Borosilicate glass is a strong heat-resistant glass that weighs less than normal glassware, making the glass light and moreover extra strong. The stylish double-walled design provides an insulating layer, so that hot drinks stay hot for a longer time and cold drinks cold, without condensation.

Essential

A beautiful presentation leads to a more enjoyable meal. And what better way than to add some wood to your table setting? The wooden serving boards and trays of Essential are made of acacia or mango wood, both sustainable and decorative. The wood has a fine grain with beautiful warm flame drawings in various colour shades. Its colour is naturally light brown, and is effective at bringing warmth into interiors, without darkening the decor.
