CHAIRMAN'S MESSAGE

H.R.H Prince Saud Bin Mashoor Bin Mousa'ad Bin Abdullaziz Al Saud:

Today's global business community is continually challenged to leverage their information technology capabilities as a core competitive advantage. From our humble beginnings in 1982, with the blessing of Almighty Allah and the support of our trusted clients and communities, Faden has grown to become a vibrant multi-national organization, continually adapting to the ever-evolving disciplines that affect the work environment of the 21st Century. We now operate in five major sectors with more than 1200 dedicated employees spread across Saudi Arabia, and are always looking for new ways to improve, enhance and expand our services.

We are proud of our accomplishments, our employees and our partners. We continue to pursue excellence, constantly developing, adapting and evolving our services to meet and exceed our own high standards. Over the decades, we have successfully stepped through many milestones in the group's life span, each with a fundamental impact on the growth of the group in terms of financial strength, specialization and geographic coverage.

I want to extend my gratefulness to our customers and suppliers who contributed with care and excellence to enriching our vision at Faden Group.

Thank you

for your continued trust and support

03

Our vision

is to achieve our clients' ambitions by consistently delivering industry-leading quality and service. Working in partnership with key stakeholders, our values-driven team strive for excellence from conception to completion. We use our specialist joinery knowledge to safeguard from uncertainties.

04 DESIGN

Here at Faden we have our own in-house design team that includes many disciplines from interior architects, Wooden works, furniture design and computer aided visualization.

MANUFACTURE

We manufacture all our products through the expertise of our engineers and technicians to study the quality of wood and paint, with the best and most modern machines, thus ensuring the highest possible level of quality control, for you.

PROJECT MANAGEMENT

Behind the beauty and quality of our-woodwork lies professional project management, a pursuit we take very seriously and which sets us apart from our competition. Fifteen percent of our staff is devoted to drafting, engineering, cost control, workflow tracking, and other client services. Our aim is to provide smooth, open, and effective lines of communication with our clients.

What we do?

CONSULTANCY

Over the years Faden has gathered vast amounts of knowledge across all aspects of the wooden works trade, we have passed on this knowledge to the benefit of architects, builders and clients alike.

INSTALLATION

Building strong relationships between us and the customer is something we are very proud of. By working with our installation team, we provide a team from the Quality Department to track the business before it is delivered to the customer to provide the best service.

05 HOSPITALITY

At Faden we understand the needs of hospitality properties. Our dedicated staff works hard to meet the high standards and requirements that come with these types of projects.

We offer:

- Bars
- Reception desks
- Wainscot paneling
- Wall and ceiling panels
- Round, oval and square columns
- Corian manufacturing

COMMERCIAL

We pride ourselves of being a preferred millwork contractor among local builders, designers and architects for the commitment and professionalism we put in our work. We manage our highly trained carpenters to complete any commercial space project on time with high quality always as a priority.

Our staff specializes in:

- Lobbies and reception desks
- Wall and ceiling panels Round
- oval and square columns
- Corian manufacturing Elevator
- cabin panels

06 LUXURY RESIDENCES

At Faden we pay extraordinary attention to every detail to ensure and deliver the highest level of quality in our projects and surpass your expectations when giving your living space a new look or building your dream home. Our work includes:

- Kitchen and bathroom cabinetry
- Built-ins
- Interior doors
- External doors
- Decorative beams and columns
- Closets
- vanities
- Wall paneling
- Handcrafted furniture
- Wooden Pergolas

07 DESIGN

Excellent joinery design incorporating every detail is key to achieving outstanding results. Our in-house design team has a wealth of specialist joinery design experience.

With trade backgrounds, they fully understand interfaces that exist and provide astute observations to overcome potential obstacles in manufacture and construction. For our clients, this means their joinery projects run smoothly with all elements robustly designed. Design Technology.

Our absolute focus at Faden is achieving the best results for our clients, and continuous investment in our team innovative technology and software ensures we are equipped with the very best tools to consistently achieve the exceptional Joinery Design Workshops. Working closely with clients and architects in design workshops, our designers transform technical concepts into workable, practical solutions for manufacture and installation.

Our collaborative design service brings comprehensive manufacturing advice, assuring a stunning product that incorporates full specifications tolerances and intricate detailing. Material Selection. As a joinery specialist proud to offer the full package for our clients, our designers are experienced in integrating a variety of materials into their work, including fabric, stone, glass, metalwork and solid surfacing. Working with designers and specifiers, we provide practical advice on material use and suitability.

Sampling and benchmarks are extensively to test ideas and options, giving assurances for suitable selections made in advance of manufacture.

Our Philosophy

Environmental Management

This Environmental Management Policy Standard is concerned with achieving and demonstrating sound environmental performance through the identification and control of the impacts of our activities and services on the environment consistent with our overall environmental policy and objectives. Our commitment extends to all our activities, wherever they take place, which have the potential to adversely affect the environment. We aim to prevent environmental damage, minimize energy and resource usage and ensure that the principles of sustainable development are operated throughout all our work, throughout design, manufacture and installation.

We will therefore:

- 1. Identify the significant environmental aspects and impacts from current and relevant past activities and, where we can be expected to have an impact, implement an appropriate environmental management system*
- 2. Minimize and where reasonably practicable eliminate any adverse impact on the Environment arising from the activities of our business*
- 3. Minimize the use of energy, resources consumed and waste produced while undertaking our business activities in a safe and professional manner*
- 4. Support the reduction, reuse and recycling of materials and ensure the legal disposal of All waste arising from the activities of the business*
- 5. Comply with legal requirements and where appropriate go beyond compliance with the minimum environmental requirements of legislative bodies and our customersour customers.*
- 6. Make appropriate resources available to manage the environment and ensure human resource roles, responsibilities and authorities are defined*
- 7. Ensure that all staff whose work may create a significant impact upon the environment are provided with adequate and appropriate information and training and are competent in environmental matters*
- 8. Inform and train our staff in understanding and fulfilling their environmental*
- 9. Establish and measure environmental performance against objectives and/or targets*
- 10. Regularly review our environmental management system at senior management level with a view to continually improving our environmental performance throughout design, manufacture and installation*

09 Equal Opportunities Policy

The company is an Equal Opportunity Employer and Prohibits Discrimination and Harassment of Any kind.

- 1. The company is committed to the principle of equal employment opportunity for all employees and to providing employees with a work environment free of discrimination and harassment.*
- 2. All employment decisions at the company are based on business needs, job requirements and individual qualifications, without regard to race, color, religion or belief, national, social or ethnic origin, sex (including pregnancy), age, physical, mental or sensory disability, sexual orientation, gender identity and/or expression, marital, civil union or domestic partnership status, past or present military service, family medical history or genetic information, family or parental status, or any other status protected by the laws or regulations in the kingdom.*
- 3. The company will not tolerate discrimination or harassment based on any of these characteristics. It encourages applicants of all age.*

Employers can be held to discriminate in three different ways:

- 1. Direct discrimination occurs when an employer treats someone less favorably on the grounds of their age, race, gender, pay, disability, religion, belief or sexual orientation.*
- 2. Indirect discrimination occurs where an employer applies an unnecessary condition or requirement to a job, which prevents certain people from applying, for example, applying a height restriction in a job where satisfactory job performance does not require someone of a particular height.*
- 3. Victimization occurs when someone who has alleged discrimination or supported another employee to make a claim, is victimized for their actions.*

10 HEALTH AND SAFETY POLICY

We're committed to making sure our team, and everyone we come in contact with, goes home safe and well every day

Culture

Health and Safety is entrenched in Quest Joinery's philosophy. We aim to lead by example, cultivating a collaborative and progressive culture, with health and safety deeply imbedded into every process and operation and the mindset of our team.

Training

Every team member is well trained to ensure they can identify hazards and risks and understand our health and safety policy and the part they play. Training is ongoing and undertaken in-house and externally. All supervisors and managers receive extensive health and safety training to enable them to effectively manage the technical health and safety requirements of our production facility and sites.

Managing Risk

Every project, no matter the size, is allocated a Faden Health and Safety representative and the risks involved are well managed from start to finish. Our highly-trained designers consult with the manufacturing and installation departments to incorporate safe working methods into their designs, with this information clearly communicated to project management and concerns addressed before work commences.

Sharing Best Practice

Our positive health and safety culture spreads wider than just our own work, we work with our supply-chain and other trades on site to share best practice to work towards our common aim of protecting the safety of everyone we interact with

Health and Wellbeing

We are dedicated to the wellbeing of our team, keeping them healthy, supporting physical and mental health and keeping them motivated and engaged at work. We provide a healthy working environment, annual occupational health checks and private medical insurance to all employees.

20 Our Factory

Faden 30,000 ft² factory provides one of the largest bespoke joinery manufacturing and production facilities in the KSA. Starting in our timber mill where we machine the timber components, through one of our three CNC lines which includes two 5 axis machines and then onto the benches assembly, we have invested and will continue to invest in the latest woodworking machinery.

Enabling us to benefit from the latest technical advances, ensuring that the components we use in manufacture are accurately produced every time and add to the quality of our finished products. The same ethos is applied in our finishing department.

We actively encourage our clients to visit our factory to see for themselves the level of expertise, the focus on quality, and our attention to detail.

22

Quality Policy

We will maintain the zest of creativity and innovation in our products without compromising the quality costs and delivery despite midst of global innovation.

Firm implementation of the Quality management system, ensuring all the products and services provided by the company to our customer's consistently or exceed their expectations.

Ensuring our employees are trained and competent for the work they perform using modern techniques and CONTINUAL IMPROVEMENT in the quality management system. Actively pursuing quality improvements through programs that enable each employee to do their job right the first time in a right way on a right time.

To facilitate and promote CONTINUOUS IMPROVEMENT at all levels of the organization through a clear understanding of business trends and customer's needs.

23 OUR INVESTMENTS
