الخوارزميات التي صنعت الفرق.

في عام ٢٠٢١م تأسست أَلْجُو بمزيج من الطاقات الشابة الشغوفة بالتصميم وثورة التقنية الحديثة لتنتج قطع أثاث ذات طابع عصري بأجود أنواع الأخشاب الطبيعية والمصنّعة؛ عبر معادلات خوارزمية، ونظرة خلاقة واضحة لمتطلبات السوق وتحدياته؛ لتُقدم منتجاتٍ من شأنها أن ترتقي بمفهوم الصناعات الفنية إلى مستوى أبعد.

The Algorithms that Created the Difference.

Algo was established in 2021 with a combination of the young energies passionate about design and the revolution of modern technology, that combination created furniture pieces in a modern style and with the highest quality of natural and manufactured wood; through algorithm equations and a creative and clear vision of the market requirements and challenges. All that so Algo could produce products able to upgrade the concept of industrial arts to a further level.
